

EMERGING TECHNOLOGIES 2003: THE e-CONFERENCE

· IN PARTNERSHIP WITH ·

e-commerce · e-learning · e-government · e-health

Emerging Technologies 2003: The e-conference is the premier information technology event of 2003 in Northern Ontario. This conference is another instalment of the highly successful ongoing Emerging Technologies Series launched by Contact North/Contact Nord, Northern Ontario's Distance Education & Training Network.

I encourage the business, education, health care and government sectors to take the opportunity to attend this one-of-its-kind conference and discover how to apply state-of-the-art technologies to continue to enhance the delivery of public services and improve business bottom line.

The innovative application of the latest information technologies is an integral part of Northern Ontario's economic development.

I look forward to welcoming you to Thunder Bay this February!

MAYOR KEN BOSHCOFF
City of Thunder Bay

On behalf of TBayTel, we are extremely pleased to partner with Contact North/Contact Nord and the Ministry of Enterprise, Opportunity and Innovation to host Emerging Technologies 2003: The e-conference.

This Conference is an excellent opportunity for both the public and private sectors to gather in Thunder Bay and discover the latest trends in technology and learn how we can apply them in our individual organizations. This is also an excellent opportunity for Northerners to network with one another, learn about the innovative projects that are taking place across Northern Ontario and share our experiences.

I encourage you to set aside the time in your calendar this winter to join us in Thunder Bay. I am confident you will not be disappointed!

RICHARD SCHUTTE
Acting General Manager, TBayTel
